Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.In this paper, we consider the role of statistical analysis in fair lending compliance examinations. We present a case study of an actual examination of a large mortgage lender, demonstrating how statistical techniques can be a valuable tool focusing examiner efforts to either uncover illegal discrimination or exonerate an institution so accused. Importantly, our case also highlights the limitations of such statistical techniques. The study suggests that statistical analysis combined with comparative file review offers a balanced and thorough approach to enforcement of fair lending laws.
