Brand New Book ***** Print on Demand *****.This non-fiction novel helps prevent the destruction of electricity and electronics that instantly results from an upper atmospheric detonation of a nuclear weapon (EMP = High altitude Electromagnetic Pulse) by a terrorist or rogue nation. Over roughly a 500-1,000 mile ground radius, an EMP explosion burns out most computers, electronic-control systems, telecommunication and transportation devices. Airplanes lose control; vehicles dysfunction; elevators get stuck; subways stop; lighted structures go dark; radio and TV cease; and commerce comes to a near halt. Humans are not killed: infra-structure remains physically intact. Scientists, military, industry and others testifying before Congress say this is an event waiting to happen - Not if, but when. The USA Dept. of Defense has EMP protected its Navy ships, other military structures, and selected government office buildings. Yet, little EMP protection exists in the civil sector of commercial and residential infrastructures, solar farms and the electric grid. Therefore, these voids of protection provide new options in this faction for EMP protecting new component and system hardware design with cost estimates. insurance and who nava
